

# SOON&SOO ALL COVER

It is multipurpose and will go onto almost any substrate with no additional primer required

'SOON&SOO ALL COVER' is multi-purpose highly functional water-based paint with easy to use, excellent adhesion, and anti-corrosive that can be applied to various substrates such as steel, wood, concrete, and non-ferrous metal without a primer.

Eco-friendly, LOW VOCs, BTX and harmful plasticizer free, low odor, excellent adhesion and durability.

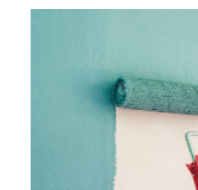

A multi-purpose, eco-friendly, highly functional water-based acrylic emulsion paint that has excellent adhesion and anti-corrosive properties that can be applied to various substrates without using primer

As it is designed based on a special acrylic emulsion resin with excellent adhesion, it is a multi-purpose highly functional water-based paint with excellent stain resistance that can be applied to various substrates from concrete to existing oil-based enamels and lacquers. This paint is an eco-friendly water-based paint having anti-fungal, anti-bacterial functions, almost no odor, and reduced VOCs.

## Usage

- Applicable to various substrates such as steel, non-ferrous metal, plasterboard, concrete, etc. of indoor/outdoor buildings
- Home furnishings, furniture, PVC, film sheets, and other indoor reform and interior
- Repair of existing coatings such as indoor/outdoor wood, enamel and lacquer

## Features

### Easy to apply

- Can be applied to various substrates

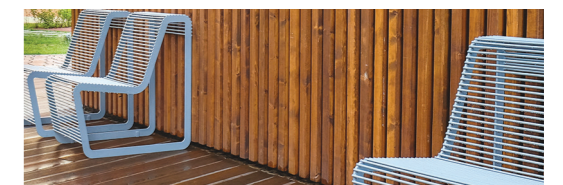

### Highly functional paint with excellent physical properties

- Excellent anti-corrosive, adhesion, water resistance and durability

### Heavy metal free paint with environmentally certified

- Heavy metal tested
- Low odor
- Anti-fungal, anti-bacterial

## Adhesion test

	Steel	Wood	Polyester printed steel	Plastic(ABS-PC)	Film sheet
