

FLAME-RESISTANT PAINT THINNER

This thinner is made to best exhibit the physical properties of flame-resistant paint (Fire Keeper (matte), DFL-100F, Fire Keeper (gloss) DFL-100N) made mainly of chlorinated rubber resin.

Usage

Flame-resistant paint thinner

Specification

Paint type	Aromatic hydrocarbon
Specific gravity	Approx. 0.86
Appearance	Transparent liquid
Flash point	At least 27°C
Storage Condition	Store indoors with good ventilation
Shelf life	12 months from the manufacturing date

Product Properties (Physical Property Data)

Flame-resistant paint thinner	Excellent dilution of flame-resistant paint
-------------------------------	---

How to Use

How to Use	1. Add a specific amount to the flame-resistant paint depending on the type of work.
Remarks	1. Wear protective gear and ventilate sufficiently to prevent inhalation by scattering. 2. The product is inflammable and thus vulnerable to fire. Never keep or use the product near fire. Make sure to avoid sparks by impact, dropping, or friction upon handling. 3. Do not mix with other thinners. 4. Fully understand the MSDS before handling the product.
