

YEGREENA

# YEGREENA STONE FLOOR

**Interior/exterior  
waterborne anti-slip  
floor paint**

Stone Floor not only  
has a very unique feel  
and texture but also  
a luxurious and  
beautiful appearance

**NOROO** Paint & Coatings

**YEGREENA STONE FLOOR** is a waterborne acrylic paint containing color chips, which is one-component decorative floor coating to be applied to the interior and exterior concrete surfaces without a separate primer. As a waterborne product, it is a finishing topcoat with excellent adhesion, weather resistance, stone-patterned color chips, beautiful appearance and anti-slip function.

Stone pattern, non-slip, waterborne,  
free of harmful heavy metals, weather resistance, low odor

---

# A decorative floor coating for anti-slip with stone-patterned color chips that give it a more unique and luxurious look – **YEGREENA STONE FLOOR**

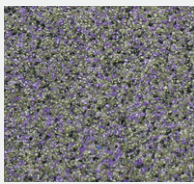

---

## I Usage

- Interior and exterior concrete, mortar surface, condos, resorts, etc.
- Walkways outside high-end apartments/villas, golf cart paths, and other floors requiring a non-slip function

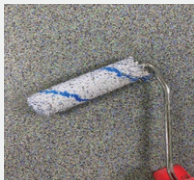

## I Features

### **Color chip textures for a non-slip function**

Slip resistance function with embossed texture of color chip particles

### **It does not require contractors or special equipment because it is easy to apply**

It is an one-component type that dries quickly and can be easily applied by a roller.

### **Beautiful appearance**

A unique look by pebble color chips

### **It is waterborne and odorless while using**

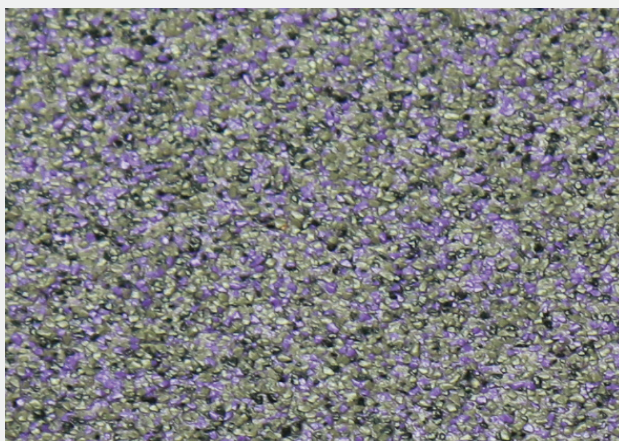

Indoor air quality certified, low-odor flooring without heavy metals
