

DR-700L

ACRYLIC URETHANE THINNER

This thinner is mainly based on aromatic hydrocarbon and acetate and improves the physical properties of acrylic urethane paint greatly.

Usage

Acrylic urethan thinner

Specification

Paint type	Acetate, aromatic hydrocarbon		
Specific gravity	Approx. 0.8	Distillation curve	Category °C
Appearance	Transparent liquid		Initial Boiling Point (Min.) 118
Storage Condition	Store indoors with good ventilation		Temperature at 50% Outflow (Max.) 135
Shelf life	12 months from the manufacturing date		Final Boiling Point (Max.) 165

Product Properties (Physical Property Data)

Urethan thinner

Excellent dilution of urethan paint

How to Use

How to Use

1. Add a specific amount to the acrylic urethan paint depending on the type of work.

Remarks

1. Wear protective gear and ventilate sufficiently to prevent inhalation by scattering.
2. The product is inflammable and thus vulnerable to fire. Never keep or use the product near fire.
Make sure to avoid sparks by impact, dropping, or friction upon handling.
3. Do not mix with other thinners.
4. Fully understand the MSDS before handling the product.
